HOW TO PLAY SIC BO

Game Overview

Sic Bo is a dice game where players bet on potential outcomes of a roll of three dice.

How To Bet

(1) To make a bet, the Player will select a chip value and tap or drag the chip to an available betting area. (On the desktop version, the Player can select a chip value and click or drag the chip to an available betting area.) The Player can select any of the available chips located on the bottom of the screen. Each chip represents a different denomination. Areas that are available to bet on will illuminate when a chip is hovered over it.
(2) The Player may continue to drag or tap on the betting area to add multiple chips of the same value. To change the value of a chip that will be added to the bet, select a different denomination chip and then drag or tap on the betting area.
(3) Once the game's minimum bet is reached, the Player can begin the game by pressing the *Play* button.
(4) The following betting options are available to the Player:

Option	Result
PLAY	Begins the game after the minimum bet (or bets) has been placed.
ROLL	Rolls the dice but does not begin a game.
CLEAR	Remove all bets currently placed from the table.
UNDO	Removes the last chip placed on the table.

Remove a Bet

The Player may choose to remove one or more bets from the board by tapping the *Remove Chip Stack* button (icon of a chip stack with a red X) while bets are placed on the board.

(1) Tap the *Remove Chip Stack* button to enter Bet Removal mode.
(2) The message "Select Chip Stack to Remove" appears at the bottom of the screen while in Bet Removal mode.
(3) Tap on a chip stack to remove it from the betting board. The value of those chips will be removed from the current bet.
(4) Repeat as desired to remove additional bets.
(5) Bet Removal mode will end when all bets are removed or the *Remove Chip Stack* button is pressed again.

Favorite Bets

(1) The Player may save up to 10 bet layouts using the Favorite Bets panel. The Favorite Bets panel can be toggled on or off with the *Favorite* button (Star icon).
(2) After placing bets on the table, the Player can press the *Favorite* button to open the Favorite Bets panel.
(3) After opening the Favorite Bets panel, the Player can press "Save Bet" to add a new Favorite Bet configuration.
(4) To load a Favorite Bet, select the bet and then press "Load." Loading a Favorite Bet will replace any bets currently on the board. A confirmation will appear when the current board has wagers that will be replaced.
(5) If the Player closes the Favorite panel or unselects a Favorite Bet without loading, the Player's bet(s) will not change.
(6) When a Favorite Bet is selected, the player can choose to rename it by pressing the Name Entry button denoted by a text cursor. Once the new name is entered, the Player can save the name by clicking the confirmation checkmark.
(7) When a Favorite Bet is selected, the Player can choose to delete it by pressing the Clear button (red cancel sign).
